SUBJECT INDEX

Akustisch vorgeschädigter Biopotentiale, Das Verhalten, beim Meerschweinchen nach Beschallung mit weissem Rauschen	297
Audiometry, The role of the binaural test in filtered speech	310
Auditory adaptation i children, Perstimulatory suprathreshold	33
Auditory canal, Postinflammatory acquired atresia of the external	115
Auditory mass screening of neonates, Semi-objective method for	46
Carcinoma of the gingiva, Squamous cell	146
Central nervous system, Electronystagmography in the pathology of the	319
Cochlea, The effect of 6-hydroxydopamine on the rabbit	339
Cochlea, The vascular pattern of the chinchilla	352
Cochlear nerve, Retrograde degeneration of the	266
Corti in guinea pig, A quantitative analysis of the afferent innervation of the organ of	11
Corti, Resting potentials in the inner sulcus and tunnel of	304
Deafness, Electrocochleography (ECOG) in sensorineural	283
Deafness, Recruitment in conduction	384
Differentialdiagnostik und Verlaufskontrollen raumfordernder intrasellärer Prozesse, Endokrinologische Hinweise für	315
Directional preponderance	409
Eight nerve responses before, during, and over seven months after Kanamycin treatment in the guinea pig, Observation of click-evoked compound	24
Eight nerve responses in the guinea pig, Normal and pathological adaptation of compound	259
Facial nerve compression in cats, Experimentally induced	390
Facial palsy, The role of viral infection in acute peripheral	221
Flight behaviour of pigeons during weightlessness	233
Glue ears, Middle ear specific proteins in	160
Hearing loss, Cardiovascular risk factors and	366
Hören, Eine Testanordnung für das räumliche	40
Kehlkopfkrebsses, Morphologische Befunde zur Immunbiologie des	166
Kochlea, Die Wirkung methodischer Faktoren auf das Mikrophonpotential der Meerschweinchen-, bei der perilymphatischen Perfusion	372
Labyrinthectomy in eyperimental primates, Effect of physical exercise upon nystagmus and locomotor dysequilibrium after	214
Lermoyez's syndrome, Electrocochleographic study of a case of	287
Maxillary sinusitis, Treatment of acute	466
Maxillary sinusitis and tonsillitis, Penetration of azidocillin into the secretion and tissues in chronic	460

Meniere's disease, The furosemid test for	419
Meniere's disease. Electron microscopy of the vestibular ganglion and end organs after ultrasound	189
Meniere's disease, Ultrastructural study of the human utricular macula and vestibular nerve in	180
Middle ear effusions, Aspartate and alanine transaminases in	58
Middle ear, The oxygen tension in transudate of the	396
Minimisation d'une grille de mesure, Etude de la	292
Mucociliary activity, The influence of varying air humidity on	133
Mucociliary system, Clearance of middle ear effusions by the	277
Mucociliary wave pattern	436
Nasal mucosa in the iron deficient state.	176
Nasal mucosa, Relationship between the vegetative innervation and the sensibility of the.	172
Nasal mucosa, Selective denervation of the autonomic nerve supply of the	124
Ocular counter-rolling as a result of tilting, A comparison between subjective and objective recording of	111
Otitis media, Bone resorption in chronic	400
Paget's disease, Otological studies in patients with deafness due to, before and after treatment with synthetic human calcitonin	378
Perilymphatic and cerebro-spinal fluid pressure, Glycerol effects on the	81
Perilymphe, Zur Proteinkonzentration der Meerschweinchen-	51
President's Speech	157
Respiratory tract reflexes, Some aspects of upper	242
Round window, The transport of radioactive labelled sodium ions at the	108
Salivary gland in tissue culture, Morphogenesis and ultrastructure of the mouse embry- onic	197
Salivary stimulus and swallowing reflex in man	445
Septumplastiken, Die Regeneration des kindlichen Septumknorpels nach	451
Stapedius muscle in man during vocalization, The activity of the	325
Stapedius muscle paralysis, Auditory fatigue in patients with	228
Stapedius reflex, The role of the, in poststimulatory auditory fatigue	1
Steigbügelprothesen, Schwingungsmessungen an verschiedenen.	60
Stenosis, Pharmacotherapy in tracheal	442
Swallowing in man, Oro-pharyngeal sensitivity and elicitation of	140
Tympanic muscle reflex elicited by electric stimulation of the tongue in normal and pathological subjects	334
Vestibular ganglion and sensory areas, A fluorescence and electron microscopic study of the adrenergic innervation in the	96
Vestibular habituation, The influence of optokinetic training upon	253
Vestibular nerve, Projection of the, to the SI arm field in the cerebral cortex of the cat	88
Vestibular receptor, Stimulation of the, by means of step temperature changes during continuous aural irrigation	425
Vestibular sensory epithelia, Degenerative changes in the human	67
